COMMANDER KILLED.

Commonweal Leader Shot by a Constable.

A LYNCHING ALMOST FOLLOWS.

The Murderer Escapes While One of the Commonwealers Is Placed Under Arrest. Two of the Industrials Wounded at Another Place—Four Industrials Drowned. Reports From the Different Armies.

ROCKLIN, Cal., May 12.—A constable at this place Thursday killed a commander of the industrial army marching east from Sacramento. The slayer was Constable Fleckinger and the victim was Colonel Paisley. At 4 a. m. the army, under command of Lieutenant General Smith, 700 strong, seized a freight train at Arcade Station and came to Rocklin. Engineer Williams, a member of the party, was placed under arrest by Constable Fleckinger. Smith and Colonel Paisley protested. A quarrel ensued and Fleckinger drew a pistol and pointed it at Smith, who jumped to one side, whereupon the constable shot and killed Paisley.

The industrials became furious and started to lynch Fleckinger. General Smith, however, protected him and aided him to escape. Engineer Williams meantime had been locked up. The industrials demanded his release, and the citizens fearing further trouble, liberated him.

TWO MEN WOUNDED.

Another Collision Between Deputy Marshals and Industrials.

NORTH YAKIMA, Wash., May 11.—Another collision occurred between deputy marshals and commonwealers yesterday, and two of the latter are now confined at the hospital suffering from gunshot wounds. Word was received that 25 men had captured two freight cars at Ellensburg, and were coming down to liberate the Coxeyites imprisoned in the county jail.

The marshals met the industrials and stopped their cars by throwing a rail across the track at a point two miles from this city. The industrials scrambled off the cars and started to run, but were brought to a halt by bullets from the rifles of the marshals. Two of them were wounded, but not seriously. Others, to the number of 120, were marched to the county jail and locked up. Fifty Coxeyites and a number of Yakima citizens, accused of inciting the army to resistance, were started on a train under heavy guard for Seattle.

STOPPED AT SPOKANE.

Taking the Arrested Industrials Back West Again.

SPOKANE, Wash., May 12.—Three hundred Coxeyites surrounded the Northern Pacific depot for an hour and howled themselves hoarse. A special train with two boxcars and a passenger coach, filled with 60 Puget Sound industrials under arrest, had pulled in from Yakima, and orders had been received from Judge Hanford to take the prisoners back to Seattle for trial. The train stood at the depot for an hour, while four passenger coaches were being secured.

In the boxcars the men were busy whittling air holes and outside the high board fence were the leaders counselling peace to the men in the cars and making incendiary utterances with the next breath. On the cars and guarding entrances to the depot were 25 deputy marshals with Winchester. When four extra coaches had been coupled on the train went west at a 30-mile rate. The purpose of hauling the men here 250 miles east of Yakima only to take them back to the west is a mystery.

Called For Troops.

SPOKANE, Wash., May 12.—Major Johnstone of this city, in command of the state cavalry, has received a telegram from the sheriff at Yakima, asking the authorities to call out the troops to quell the riotous proceedings of the commonwealers there. The request was referred to Governor McGraw for action. "Jumbo" Cantwell has assumed command of the Spokane commonwealers since the disgrace of Colonel Dolphin, who was court-martialed by his men for his attempt to convert the army funds to his own use. The allied armies at this point now number 800 men.

TRAIN STEALERS IN TOPEKA.

The Treatment of Sanders' Men Causes an Indignation Meeting to Be Held.

TOPEKA, May 12.—The Sanders industrial train stealers arrived here at 1:20 o'clock yesterday afternoon as prisoners of United States Marshal Neeley. The attitude of Governor Leavelle was soon manifested toward the wretches. He and Mrs. Diggs and Secretary of State Osborne and other Populist leaders at once held a private conference, and at its close they issued a call for a mass-meeting to be held on the public square in the evening "to discuss the question of the unemployed."

The governor then consented to the request that the army be allowed to camp on the courthouse grounds while in the city. Marshal Neeley interfered with that plan by keeping the men locked up in the train.

At the mass-meeting strong resolutions were passed demanding the resignation of United States Commissioner Waggener, as it was believed he exceeded his authority in accompanying the Missouri Pacific special train. Speeches were made by Judge Waters, B. C. Clemons, Noah Allen and Superintendent of Instruction Gares, and all of them denounced Marshal Neeley in strong terms for not taking better care of the prisoners and feeding them better.

A committee consisting of the mayor

and others was appointed to call on Marshal Neeley and demand that the prisoners be given food or the city be allowed to provide for them. The men themselves have not uttered a word of complaint, and the food that is now being furnished by the marshal is being contributed through their own commissary department.

Not a weapon of any kind was found among the members of the army by the deputy marshals. Military discipline has been observed since the army started and it has been kept up since they have become prisoners.

Sanders is an electrician by profession and is a native of Missouri. He is 29 years old. While his men have been provided for by contributions from the public, Sanders has paid for his own meals at hotels. He says he and his men are going to Washington, because there is no work for them in the west. He hopes to reach his destination by June 2.

Sanders says that the Missouri Pacific in blocking the road to prevent the progress of the army through Colorado, damaged engines and cars to the extent of fully \$5,000.

Marshal Neeley's prisoners will have a formal hearing on Monday before United States Commissioner Waggener.

They Will Be Ordered On.

SOUTH BEND, Ind., May 12.—Randall's commonweal army was met by the police yesterday afternoon and hurried through the city by the shortest route to Island park, where they are now in camp. They were furnished provisions for supper and breakfast. They will be ordered to move on at once. The authorities assert that should any of the men refuse they will be placed at work on the stone pile.

Galvin Well Cared For.

IRWIN, Pa., May 12.—Galvin's army marched into this place at 4 o'clock yesterday afternoon from West Newton. The army was given quarters in a barn belonging to Mrs. Rose Kelly of North Irwin. The citizens responded liberally to help the army along, about \$100 in money and 200 loaves of bread being contributed during the afternoon.

Kelly's Navy Divided.

RUNNELS, Ia., May 12.—The Kelly navy camped last night at Fairfield. The Sacramento men made more trouble by stealing the beef contraband and getting away down the river. Ten boats that left the rest of the fleet Wednesday camped 35 miles ahead of the other boats at Hawell. The deserters have plenty to eat.

Coxey's New Camp.

WASHINGTON, May 12.—General Coxey, acting under orders from the health department, will move his camp out of the city of Washington. He has been offered a site six miles away near the old Blandensburg dining ground. He says he will return to Washington when the other forces have mobilized at the Capitol.

Four Industrials Drowned.

ELLENSBURG, Wash., May 12.—Word has just been received that four of the industrials who started down the Yakima river yesterday in a boat were drowned by the capsizing of the boat, which was caught in an eddy. The boat contained 25 men in all.

Fry's Division.

GREENSBURG, Ind., May 12.—General Lewis C. Fry's industrial army of 300 are here. They will leave for Lawrenceburg today. The people are not taking much stock in the army, and their stay here will prove very unprofitable.

THE FIRE AT COLUMBUS.

One Life Lost—Man Missing—The Loss Will Be Very Heavy.

COLUMBUS, O., May 12.—The fire which totally destroyed the Pennsylvania freight depot, was caused by the explosion of a barrel of naphtha.

A general alarm was turned in, and the fire department responded quickly, but owing to the inflammable character of the structure, it was soon wrapped in flames. Attention was then devoted to the grain elevator, lumberyards and depots which surrounded the building, and by hard work the fire was kept from spreading.

Scarcely a stone's throw to the north stood the Union passenger depot, and upon its roof the sparks fell in alarming quantities. They were smothered, however, by watchful employees.

When the fire had subsided it was ascertained that two men were missing, Edward Kohl, a freight handler, and John Wilson, a freight caller. A search in the debris soon revealed the charred and disfigured corpse of Kohl. He was 30 years old, married and lived on First avenue. It is feared that Wilson met a similar death.

The fire was caused by the explosion of a barrel of naphtha, the gas from it having ignited from a lantern carried by William Cochran, a freight handler. He was badly, but not fatally, burned.

The main building was a long, one-story brick structure, with a semi-circular roof, a dozen large arched doors on each side, and at the north end, extending 250 feet, was a frame addition.

The loss on the building, which is a total wreck, is \$50,000. The greatest loss is on the contents, and this can not be even estimated until the bills of lading are gone over in detail, in connection with an inspection of the ruins. It is supposed, however, to be several hundred thousand dollars. Fourteen carloads of merchandise of the Pennsylvania company and four of the B. & O., on an adjoining track, with several stray cars in the yards, were destroyed.

HOUSE AND SENATE.

A Day of Discussion Without Anything Being Accomplished.

WASHINGTON, May 12.—After action on some minor bills the house, at 12:27 p. m., went into committee of the whole to consider general appropriations bills (Mr. Richardson of Tennessee in the chair) and the naval appropriation bill was taken up. Mr. Bontelle advocated liberality toward the navy to continue the good work commenced under Secretary Chandler.

Mr. Baker (Pop., Kan.) who followed Mr. Bontelle, spoke briefly on the bill from the Populist point of view, but his speech was soon diverted into a tariff speech with a Populist flavor, and gave rise to frequent interruptions.

The debate continued, taking on a very acrimonious character and charges and countercharges of "colonization" in the navy yards were freely passed between Mr. Reed, Mr. Bontelle and Mr. Cummings.

At 5 o'clock, it being Friday, the house according to custom took a recess until 8 o'clock, the evening session to be devoted to the private bills on the calendar.

At the night session six private pension bills were favorably acted upon and at 10:27 the house adjourned.

In the Senate.

WASHINGTON, May 12.—The senate put in the day discussing the tariff bill and voting on several amendments. Those proposed by the compromise committee were carried on strictly party votes.

Just before the senate went into executive session a truce was arranged by which the Democrats agreed not to press the motion to meet at 10 o'clock with the understanding that the morning hour should be limited to one hour and the tariff bill be taken up each day at noon.

STRIKE AT PULLMAN.

Two Thousand Employees Suddenly Cense Work—Works Shut Down.

CHICAGO, May 12.—Two thousand employees of the Pullman Palace Car company quit work yesterday. Trouble has been brewing for some time, the men demanding the restoration of a 33 1/3 per cent cut in the wages made last year. The officials of the company refused the demand and asserted that they were running the plant at a loss for the purpose of giving the men employment.

Vice President Wicks and other officers of the company were at the works investigating charges made by the employees' committee, and they were entirely unprepared for the sudden seriousness of the situation had assumed. The men marched out quietly in groups, and for a time the officers thought the strike was confined to the disaffected few who had decided to move without waiting for the decision of their superiors.

What had suddenly precipitated the strike was unknown as the men and company officers at Pullman were not known to have had any further conference, and matters were supposed to be in the condition in which they were left at the close of the conference last Wednesday, when it was thought that the men had decided not to strike.

Last night a notice was posted on the gates leading to the Pullman works, declaring that the works were closed and would not resume operations until further notice. The notice was signed by General Manager Middleton, who said: "We told the men that we were not running for our own profits, but to give them work. We now propose to show them that we meant what we said."

DUN'S REVIEW OF TRADE.

Money in Abundance, Although There Is Very Little Speculation.

NEW YORK, May 12.—R. G. Dun & Company's weekly review of trade says: The speculation in grain has again broken records with the lowest price ever made for wheat, although western receipts are a little smaller than a year ago, while exports are also smaller by more than a quarter. The prevailing belief is that the yield will, as in other recent years, far exceed government indications, which are again pointing to a short crop.

Corn has changed in price but little, pork products have been fairly steady, with oil and coles unchanged, but cotton is weaker in tone, although receipts from plantations are a little smaller than a year ago. It is a striking evidence of the general want of confidence that there is so little speculation while money is abundant almost beyond precedent.

One large failure about doubled the aggregate of liabilities for firms failing in the week ending May 5, which would otherwise have been quite small, but were \$2,922,794. The number and the general average of liabilities are still encouragingly shrinking. For four weeks of April the liabilities reported were \$8,235,562, of which \$4,657,240 were of manufacturing and \$1,677,699 of trading concerns. For the past week the failures have been 203 in the United States against 257 last year, and 42 in Canada against 23 last year, with none of especial importance, although four bank failures are included.

Lotta Must Pay the Claim.

SAN FRANCISCO, May 12.—A jury in Judge Sanderson's court yesterday afternoon gave John W. Turner a \$335 verdict against Charlotte Crabtree (Lotta) for legal services rendered in 1887. Since then Lotta had left the state, and so the statute of limitations did not bar the claim. Turner also sued for interest since 1887, but the jury did not allow that.

MIDDLESBORO, Ky., May 12.—All miners at Mingo, Reliance, Bryson Mountain and Fork Ridge mines went back yesterday morning. This breaks the backbone of the strike in this section.

FIREMEN'S COMPLAINTS.

They Are Being Investigated at Terre Haute, Indiana.

TERRE HAUTE, May 12.—The board of grand trustees and the grand executive board of locomotive firemen yesterday considered the complaints of firemen against Chief Sargent, the latter having refused to sanction a strike on the Chicago and Eastern Illinois after the firemen had voted almost unanimously in favor of it.

Chief Morrissey of the Trainmen and Chief Clark of the Conductors are here. These officers being familiar with the causes leading to Chief Sargent's action, have been called into conference. It is not likely that the meetings will end before the middle of next week. The Ann Arbor firemen have gone home, having failed to secure restoration of the strike pay.

A little diversion in yesterday's meeting was treating of the published stories about a \$100,000 shortage in brotherhood funds and another about a big row between Chief Sargent and Secretary Treasurer Arnold when the latter demanded to know what had become of the funds.

The officers believe these stories were instigated by disgruntled members of the order, who now pretend loyalty to the American Railway union. The fact is that the strike fund never reached but \$99,000, and was in charge of Chairman Hines of the grand trustees. Its disposition has been fully accounted for.

It is reported that one of the results of the meeting will be to expel all firemen who joined the American Railway union strike on the Great Northern contrary to the laws of the order. Chief Sargent told President Hill all such firemen would be expelled, and at the time it was thought to be a bluff. Whatever action is taken will be important, as showing the policy of the firemen toward the American Railway union.

HAUGHEY'S CROOKEDNESS.

Not a Dollar Behind the Wrecked Indianapolis Bank.

INDIANAPOLIS, May 12.—In the trial of the wreckers of the Indianapolis National bank, yesterday, the government introduced a letter from the comptroller of the currency to Haughey, the president of the bank, dated in 1885, and ordering the doors closed unless their affairs were placed on a substantial basis at once and the laws obeyed.

The letter was a scathing rebuke and showed that nine years ago the bank was rotten to the core, and had not a dollar behind it. Haughey's reply to this letter was also produced in which he pleaded for mercy, and the bank was allowed to continue in business under protest. For nine years after this Theodore P. Haughey was one of the most respected men in the community, and was even then living a lie. The letter produced a wonderful sensation on account of its startling contents.

The government will close its case Monday. T. F. Haughey will probably be placed on the stand in rebuttal. Ex-Archbishop Miller of counsel for the defense created a stir in the ranks of the government's attorneys by stating that they would show that Cashier Rexford never swore to the report made to the comptroller of the currency just prior to the failure of the bank. If this will knock out some of the counts in the indictment.

A VERY NARROW ESCAPE.

Dynamite Used as a Preventive Against Grave Robbery.

LOANSBORO, Ind., May 12.—The recent discovery of grave robbing in Cass county induced many people to adopt extreme precautions. A number of graves were charged with dynamite bombs, calculated to blow possible thieves sky high. Near Young America yesterday, a well known monument dealer came near getting his eternal quietus at one of these graves.

He had been engaged to erect a handsome tribute to the memory of a departed citizen, and had just begun an excavation for the monument's base when the widow of the late lamented came driving down the cemetery road like mad, and breathlessly demanded that operations cease. The monument man was at first inclined to think that the woman was either crazy or anxious to go back on her contract, and was about to resume work when informed of his danger. It is needless to say that he speedily changed his intentions. Another episode of two and the whole charge would have exploded at his feet.

BAD SCARE NEAR SIDNEY.

Train Jumps the Track Just After Crossing High Bridge.

LIMA, O., May 12.—Northbound passenger train No. 12 on the Cincinnati, Hamilton and Dayton railroad, due here at 2:45 a. m., had a miraculous escape from a disastrous wreck near High Bridge at Sidney.

A drawbar had been accidentally dropped on the track just below the bridge from a freight car, and when the passenger train came along the drawbar caught in the rear track of the express car. The train crossed the bridge in safety, but just as it reached the north end the express car jumped the track and ran on the ties till the train was stopped, about 100 feet further. Had the car jumped the track on the bridge several cars would have gone over.

Glass Works Closed.

MUNCIE, Ind., May 12.—The Muncie flint glass works are idle, and 200 men are thrown out of work on account of 90 "carry-out boys" going out on a strike, demanding 65 cents per day, a 10-cent raise.

He Ate Too Much.

MADISON, Ind., May 12.—Dave Pink, living in an old shanty near here, was found nearly starved to death. Food was taken to him, but he ate too much and will die.

AN ATROCIOUS CRIME.

Four Persons in One Family Foully Murdered.

ANOTHER LEFT FOR DEAD.

The Horrible Crime Took Place Near Browning, Missouri. A Little Seven-Year-Old Girl Tells the Details of the Murders—The Perpetrators of the Crime Have Not Been Captured.

MILAN, Mo., May 12.—A most atrocious crime was committed Thursday night, near Browning. Gus Meeks, his wife and two children were murdered outright and another of the Meeks children, a girl, 7 years old, was so badly injured that she may not recover.

The circumstances leading up to the crime are about as follows: There are a number of criminal cases pending in Lynn and Sullivan county against William P. Taylor and George Taylor, brothers, the former being a banker of Browning, and the latter a farmer. The charges against them are forgery, arson and larceny. William P. Taylor, Gus Meeks and others were jointly indicted, and Meeks pleaded guilty at the last term and was sent to the penitentiary. About a month ago he was pardoned by Governor Stone in order to use him as a witness against the Taylors, who were, in consequence, anxious to be rid of him.

It is said the Taylors had arranged with Meeks to give the latter a wagon and team to get out of the county so that he might not be present when the case against the Taylors was called for trial. From Meeks' mother it is learned that Thursday her son received a letter from the Taylors at Browning telling him to be ready at 10 o'clock that night to go away; that Gus Meeks and children waited for Taylor until midnight, when two men whom Meeks said were George and Bill Taylor came to their home in a wagon. Meeks and his family got into the wagon and started for Browning.

The details of the crime as far as can be obtained were told by the little 7-year-old girl, who was suffering greatly as she recited the story. It appears that when the Meeks family and the persons accompanying them reached a point near the schoolhouse in Lynn county, a short distance east of Browning, they were met by two other men who were lying in wait. Gus Meeks was first shot and Mrs. Meeks jumped. She also was killed. The murderers then took stones and beat the brains out of two of the children and left the other for dead. The murderers then, it is supposed, loaded the whole family into the wagon and hauled them nearly two miles to the Taylor farm, where they were buried under a strawstack.

At half past 4 o'clock yesterday morning, the eldest child came to her senses and made her way to the residence of a Mr. Carter, nearby. The Carter family then sent a boy to the Taylor farm, where he found the murdered family, as stated by the Meeks girl. The Carter boy then saw George Taylor and innocently told him of the murder as described by the almost dying child. George Taylor immediately started for Browning, on horseback, got his brother William, and both departed on horseback. Their departure from Browning was before the knowledge of the murder had reached there.

The people of the neighborhood placed guards around the strawstack where the dead bodies were found. Upon investigation it was discovered that a blood quilt around the bodies was on fire, the evident purpose being to cremate the bodies. The little girl recovered sufficiently to describe some of the parties, and upon her evidence Sharon McLaughlin of Gonid and George Howlett of Lime county have been arrested as participants in the crime.

A party of citizens from Milan and Browning found at the place of the murder the revolver and a stone with which the murderers had shot and killed the father and mother and beat out the brains of the two children and left the other for dead.

The child says that they struck, beat and kicked her into insensibility and thought her dead. At this writing the Taylors have not been arrested, but it is not thought possible they can escape.

Great excitement prevails, and if the murderers are fully identified, the law will have to be very strong to prevent summary punishment.

BOMB IN PARIS.

Several Buildings Shattered, But No One Was Injured.

PARIS, May 12.—A bomb was exploded at 11:30 o'clock last night at the residence of Pierre Masson, a hat manufacturer, at 42 Avenue Kleberg. Nobody was injured, but the house was badly damaged. The whole neighborhood was aroused by the noise and there was great excitement. There is no clue to the perpetrator. The bomb was of cylindrical form and is believed to have contained chlorate powder.

The explosion was so violent that not only all the windows in the Masson house were broken, but windows were broken in a house on the opposite side of the avenue. The bomb was formed of a sardine box, filled with pieces of lead and iron.

The explosion threw some of the servants out of bed. A man has been arrested on suspicion of having caused the explosion. It is believed that the outrage was directed against a former public prosecutor of the name of Borretiere, who lives a few doors away.

Fair weather; warmer; south winds.

It becomes more apparent every day that Senator Hill's opposition to the tariff bill is the result of that dicker with the Republicans to defeat Judge Maynard's confirmation for Associate Justice of the Supreme Court.

HE of the BULLETIN is anxious for the Ledger to read Senator Lindsay's speech on the tariff. No, thank you; we prefer to read after some one who knows what he is talking about. Mr. Lindsay's knowledge of the tariff is about as dense as that of the editor of the BULLETIN.—Public Ledger.

Beg pardon. We forgot that it would be impossible for the editor of the Ledger to learn anything from Senator Lindsay, especially about the tariff.

WELL, what are we coming to? The BULLETIN has actually nerved itself up to the point of saying that Congressman Paynter was slighted by the recent convention.—Public Ledger.

It requires no nerve to do a simple act of justice. Mr. Paynter redeemed this district from the Republicans and has represented it three terms in Congress, with credit to himself and his party, and richly deserved a "well-done, thou good-and-faithful-servant," from the convention this week.

THE business men of New York have let Senator Hill know that he does not voice their sentiments in opposing the Wilson bill. At a meeting a few days ago, attended by thousands, the business men adopted a resolution declaring that "the speedy passage of the pending tariff bill, with or without amendment, would bring prosperity to our whole country, would fill the sails of our commerce, start every wheel of our manufactures and give larger markets to our farmers; it would restore new life and courage to the Democracy, and insure to them many years of future victory; while the defeat of the bill, by Democratic votes, would be a disaster to the Nation and an act of treason to the Democratic party."

THE Cincinnati Enquirer insisted the morning after the election that the Democratic victory in the Third Ohio district could not be construed into an endorsement of the Wilson bill. The day following the Enquirer's observation, the Georgetown News-Democrat says the Democratic hosts, of every part of the district, met at the successful candidate's home and amid cheers from 10,000 loyal throats, adopted this resolution: "We have won this glorious victory in spite of great obstacles by standing upon the principles of our party and endorsing the Wilson bill. While we acknowledge the right of the Senate to amend and its ability to improve it, we earnestly hope that its main features will be preserved."

The Democrats of the district ought to know a little more about their fight than the Enquirer.

"Hobo"

Baltimore Sun: "A fairly satisfactory version of the origin of the word 'hobo,' so much used in describing members of the industrial army says it is of New York origin and a corruption of Hoboken. 'Hoboken,' says this tramp philosopher, 'used to be an extremely tough locality, and in some parts it is still very tough. When a man in New York wanted to express an extremely uncomplimentary opinion of a thing or place he would say it was tough as Hoboken. If he had been out all night and felt very shaky he would say that he felt very Hoboken. The term spread over New York and over the country. The young ruffians of Hoboken came to be called hobos, which does not require so much effort as would 'Hobokenites.' This is the origin of the term, and in the sense of the word the men of the commonweal are not 'hobos.'"

ELIZABETH PEED WILSON.

Another Home Saddened by the Loss of a Loved One—Her Death Last Night.

Miss Elizabeth Peed Wilson, daughter of the late Josiah Wilson, died last night at 9 o'clock at the family residence on East Second street, of consumption.

A month or so ago deceased was compelled to give up her duties as teacher in the city schools on account of failing health. Her many friends hoped that with rest and medical treatment she would soon be restored, but instead of this she continued to decline. Last night, the summons came and she peacefully crossed over the dark river to join the loved ones gone before.

Deceased was twenty-two years of age, and was universally loved and esteemed among her friends and acquaintances. A few years ago she graduated from the Maysville High School and was one of the brightest members of the class. She had been a successful teacher since then, until failing health compelled her to resign her chosen work.

The funeral will occur Monday at 10 a. m. at the First Presbyterian Church, services by Rev. Dr. Hays. Interment in the Maysville Cemetery.

Murdered His Cell Mate.

CHICAGO, May 12.—James Maher, a prisoner in the Bridewell, was murdered by his cell mate, George Dunlap, who became suddenly insane. Maher's head was beaten to a pulp on the stone floor before assistance could reach him. A terrific struggle took place between the guards and the madman before he was overpowered.

Another Strike May Be Ordered.

GRAND FORKS, N. D., May 12.—The American Railway union has received a telegram telling them to hold themselves in readiness as another strike may be ordered. The men are indignant over the refusal of President Hill, as they say, to stand by his contract. They expect to be called out inside of 24 hours if at all.

Met a Horrible Death.

HARRODSBURG, Ky., May 12.—The 12-year-old daughter of John Brand, living in Washington county, met a horrible death yesterday afternoon. She had gone to Joel Chamblins, a neighbor's, on an errand. As she entered the gate the dog grabbed her by the throat, tearing it open and otherwise lacerating her body. The dog also killed a calf, tearing its throat open.

D. P. HOLT, Pastor.

PROFESSOR JAMES POYNTEZ NELSON came out in the Lexington Press one day this week in a scathing review of the action of the Lexington ministers in the Breckinridge case. It is mainly directed at the Episcopal minister, of which church Mr. Nelson is a member. He takes the ground that their action will only tend to make a more bitter feeling in the community, which is now almost at white heat. Professor Nelson is well-known in this county, having taught school at Washington a few years since. He is a highly cultured man and a Virginian by birth. His father was a missionary to China, and a very learned and accomplished man. The family are relatives of the Mises Lamb, of this city, whom they used to visit when they lived in the country.

HANDKERCHIEFS

Are the attractive staples in which we now offer bargains. You must have Handkerchiefs. They are civilization's necessity, and pretty, dainty ones are a badge of womanly refinement.

Beautiful Linen Handkerchiefs, handsomely Embroidered, with Scalloped or Hemstitched edges, only 15 cents each.

These goods we have never sold under 25 cents. Unbelieving Thomases, we solicit your inspection.

Our Laces would tempt the economy of a miser, and they are just what the matrons, bachelor girls and buds must have for summer conquests. Our stock embraces Point de Venice, Burges, Point d'Esprit, Bourdon, Valenciennes, Chantilly, Irish Point, Spanish Guipure, in match Laces and Insertings at a yard, 15c. up. This is a Lace season, and a larger selection than we offer would be hard to find. Come early, before choice is taken.

FOR PAOLA, KANSAS, MAY 28.

A Chance For Western Home Seekers. Major J. T. Long Has a List of Farms For Sale.

I will conduct a party to inspect land in the counties of Miami, Franklin, Linn and Anderson in the State of Kansas leaving Maysville, Ky., on Monday, May 28th, at 6 a. m.

These counties lie in the eastern part of Kansas, and are well settled, well watered and wooded, and are the garden spot of the world.

Improved farms in these counties are the best and safest investment you can make.

I have a large list of farms for sale on easy terms within 100 miles of Kansas City.

The citizens of the above named counties will extend you a hearty welcome and "show you around" without charge. Arrangements have been made for a special through car, and stop over will be allowed in Kansas at pleasure.

For terms and rates for the trip, and prices of lands in different counties, please address J. T. Long, Maysville, Ky.

THE usual services at the Church of the Disciples to-morrow at 10:45 a. m. and 7:30 p. m. Sunday school 9:30 a. m. Y. P. S. C. E. 6:30 p. m. Morning theme, "The Sick Man's View of Religion." Night lecture, "Coxey's Commonwealers a Symptom of Our Nation's Ailments." Count Tolstoi, Russian Minister of the Interior, proposes to put a stop to the growth of Nihilism by putting an end to the higher education of the poorer classes. In 1887 he issued an order of which the following is an extract: "The gymnasias, high schools and universities will henceforth refuse to receive as pupils or students the children of domestic servants, peasants, tradesmen, petty shop-keepers, farmers and others of like conditions, whose progeny should not be raised from the circle to which they belong, and thereby be led, as all experience has shown, to become discontented with their lot, and irritated against the inevitable inequalities of the existing social positions." Our position is and must be the reverse. We are bound to educate "our masters," the masses. "Popular power makes popular intelligence a necessity; popular intelligence makes the multiplication of popular wants inevitable, and the multiplication of popular wants, if more rapid than the improvement of the popular condition, necessarily produces popular discontent."—Strong. The multitude have already tasted of the tree of knowledge, and have become aware of their nakedness. And a supply of bare necessities are mere "fig-leaves." Laboring men, come and hear the discussion.

THE C. AND O.'S NEW SCHEDULE.

It Goes Into Effect To-morrow—Five Trains Each Way—The New "Flyer."

The C. and O.'s new time-table will go into effect to-morrow. Under the new schedule the following will be the hours for trains at this point:

EASTBOUND.
No. 16, Hinton accommodation.....10:10 a. m.
No. 2, F. F. V. limited..... 2:03 p. m.
No. 18, Huntington accommodation..... 5:10 p. m.
No. 20, Maysville accommodation..... 8:00 p. m.
No. 4, Washington express..... 8:53 p. m.

WESTBOUND.
No. 19, Maysville accommodation..... 5:30 a. m.
No. 1, Cincinnati express..... 6:10 a. m.
No. 17, Huntington accommodation..... 9:10 a. m.
No. 3, F. F. V. limited..... 4:02 p. m.
No. 15, Hinton accommodation..... 5:10 p. m.

It will be seen that there will be a number of important changes, the most important affecting the famous F. F. V. and the Washington express. The new Flyer, eastbound, instead of passing here at night, is due at 2:03 p. m., arriving in Washington at 7:40 the next morning, Baltimore an hour later, and New York at 1:49 in the afternoon.

The new train will be made up of the very finest vestibule Pullmans that can be manufactured. The Pullman company departed from its long established rule governing the standard colors, and finished the cars for this train in the standard colors of the C. and O. company. Besides the regular coaches, an observation car will be run between Cincinnati and Hinton, so that passengers may derive all the benefits from the beautiful scenery along the line in the Kanawha, Ohio and New River valleys. The rear end of this car will be fitted out with movable easy chairs. In the center will be a smoking apartment, and at the other end revolving easy chairs. The new schedule will make it possible for travelers to reach New York two and one-half hours ahead of the old time and Boston three hours. The new F. F. V. will run through solid in both directions between Cincinnati and New York.

Another accommodation train goes on under the new schedule, eastbound in the forenoon and westbound in the afternoon. Heretofore there has been no westbound accommodation in the afternoon.

A new time-card will also go into effect on the Maysville Division of the L. and N. to-morrow. Under the new schedule the trains will arrive and depart as follows: No. 9 leaves Maysville at 5:47 a. m., No. 11 leaves Maysville at 1:50 p. m., No. 10 arrives at Maysville at 9:50 a. m. and No. 12 arrives here at 7:50 p. m.

A Preacher Muzzled.

Bourbon News: "We are informed that the officers of the Methodist Church in Lexington, the pastor of which has taken a conspicuous part in making political harangues in the pulpit, held a meeting and notified him that they disapproved his course, and, as he had four months more to serve, desired to know what he proposed to do in the future. The officers were determined that they would not further tolerate the degradation of the pulpit by its prostitution to political purposes. The preacher promised to avoid political preaching in the future, and will continue in charge of the church. But his course has, no doubt, severely crippled, if it has not destroyed his influence for good. It is proper to state that the church officers conceded to the pastor the unquestioned right to vote and talk as he pleased but were determined to put a stop to unchristian deliverances in the pulpit."

W. J. Parker Suicides.

W. J. Parker, one of the most popular young men in Paris, committed suicide in his home over his wife's millinery store, about 7 o'clock Thursday evening. The weapon used was a small revolver, and the bullet entered his left temple and produced death in about two minutes. It is not known why he took his life, as he was in cheerful spirits all day, and was about to start to the circus with his little son.

The deceased was about twenty-eight years old, and leaves a wife and two children.

Mr. Parker's parents live in Frankfort. His wife was Miss Mamie Connell, of Paris, where they have resided since they were united in marriage. Mr. and Mrs. Parker have a large acquaintance in Maysville who will be grieved to learn of the sad ending of his life.

A SUPERSTITIOUS citizen of Paris doesn't like to carry quarters in his pockets because each one has "thirteen stars, thirteen letters in the scroll held in the eagle's beak, thirteen marginal feathers on each wing, thirteen tail feathers, thirteen parallel lines on the shield, thirteen horizontal bars and thirteen arrowheads."

The Fiscal Court, of Fayette County, will probably purchase six bloodhounds, one to be placed in each precinct and used by the farmers in chasing down thieves of all characters. 'Squire Grow explained that the amount of meat and the number of fowls and small animals that had been stolen from the farmers made this action necessary.

GREEN CHEATHAM, of Carlisle, has compromised his suit against the Adams Express Company for injuries received some months since by a bundle of papers being thrown against him at the Carlisle depot. He received a check for \$3,000. Hanson Kennedy and Winfield Buckler were his attorneys. It was a rather expensive messenger throw for a to make.

HIS LAST SLEEP.

Henry Bower, Colored, Run Over and Killed Last Night By a C. and O. Train.

Henry Bower, colored, was run over and killed about nine o'clock last night by a C. and O. freight train just east of Limestone Creek bridge. His body was found shortly afterwards by Abner Jones, colored, while on his way home. Jones at once notified Policeman Purnell, and the remains were afterwards removed to Means' undertaking rooms.

Bower had been working during the day for Weiland & Co., hauling ice from the depot. Last night after the arrival of the Maysville accommodation some one saw him on Second street. He was in an intoxicated condition at the time; this was the last seen of him alive. The supposition is that he laid down on the track and went to sleep.

It is thought that the local freight train from the East,—No. 63,—was the one that killed the unfortunate man. It passed down to the depot shortly before the body was found.

The unfortunate man's head was almost severed from the body. Bower's home was on "Bowling's Hill," Fifth ward. He was about forty years old and leaves a wife and three step-children.

Coroner Roe held an inquest this morning, the verdict being in accordance with the above facts.

Mission Sabbath school at the German Church to-morrow afternoon at half-past 2 o'clock. Young people's prayer meeting at 7 o'clock.

A SPECIAL from Lexington says that the women of the Ashland district are very indignant because they are refused the use of the papers through which to protest against returning Colonel Breckinridge to Congress. It is said they will probably address a letter to him at Washington, asking him to withdraw, and if he refuses they will then hold mass meetings and denounce the Ashland Congressman.

THURSDAY a young couple boarded a C. and O. train at Gauley, W. Va., accompanied by an older man, and at once informed the conductor that they wished to get married before they reached the next station. They said that their friend was a minister, and as the conductor could offer no objections the ceremony was soon performed. The couple got off at the next station, only four miles distant, as man and wife.

HAVING severed my connection with H. C. Burkley & Co., I wish to express to the good people of Mason and adjoining counties my sincere thanks for the liberal patronage they have extended me in the past, and in this connection state that it is my purpose, in the near future, to engage in the Shoe business at my old stand, No. 33 West Second street, Cooper's Building, where I shall have for my friends the very best and newest lines of footwear at prices in keeping with the times. KILLING AN ELEPHANT

Tip the Man Killer Poisoned to Death.

DIFFICULTIES OF THE WORK.

After an All-Day's Effort the Dangerous Beast Finally Succumbs—He Had a Record of Killing a Number of Men and Injuring Several Others—Account of Some of His Doings.

NEW YORK, May 12.—Tip, the big, man-killing elephant, gave the park commissioners and a few favored medical men a great deal of anxiety yesterday, and for a while baffled them in their attempt to kill him. When, a few days ago, the conclusion was reached that the gigantic pachyderm was incorrigible and constantly becoming more vicious, means of ending his sanguined career were discussed. The conclusion was reached on Wednesday to kill him with poison, and cyanide of potassium was selected as the most likely drug to do its work quickly and painlessly.

Tip has been the object of much interest since his doom was announced, and visitors to his quarters in Central park have numbered well up into the hundreds of thousands. It was the intention to administer the fatal dose soon after daylight, and in order that the task might be the easier Tip was deprived of food for 24 hours.

At 6 a. m. Park Commissioners Claussen, Strause and Bell, accompanied by Superintendents Smith and Burns, arrived at the arsenal in Central park. A few minutes later Drs. Huntington, Allen and Spitzka joined them. Tip was meanwhile swaying restlessly around in his cage and swinging his enormous trunk viciously.

Two avoid possible accidents, all were excluded from the elephant house except those directly concerned in the event. Otto Mops, who has been for years an animal trainer, both in Germany and in this country, walked up to the cage and handed Tip a rose-colored apple, which had a big dose of cyanide of potassium hidden within its surface.

The big fellow nibbled at it for a moment with his trunk and finally put it in his capacious mouth. But when he crunched it between his teeth he evidently felt that there was something wrong with the taste and spat it out. Mops then tried him with a carrot which was similarly drugged, but Tip refused to taste it, as he did another apple and carrot which were passed to him afterward.

Keeper Mops then gave Tip a piece of bread containing about two ounces of the deadly drug, but the big fellow, after munching it slowly a couple of times, threw it also on the floor. Tip undoubtedly had his misgivings about the dainty morsels which were being fed to him, but the doctors said that he had certainly got enough poison into his system to kill a dozen horses.

The drug did not seem to have very much effect on him until nearly an hour afterward, when the violent motions of his head, body and trunk became less rapid, and his legs seemed to be getting weak. This lasted only a short time, however, and then Tip regained his wonted vigor.

All through the day they tried to administer the poison, cyanide of potassium, by one means or another, but did not succeed. At last they decided on bran, and using small capsules, made up of balls of wet bran, in each one of which was placed a capsule containing about five or six grains of the cyanide. They were placed in the ordinary pail in which food had been given him before.

At seven and a half minutes past 4 o'clock he put his trunk in the ground and, taking up a ball of bran, blew it down his throat, several others followed and then he stopped; something seemed to affect him. He moved to the front of the cage and rubbed his side against the bars, then he trumpeted once or twice, and at the end of four minutes seemed to go into a convulsion, his body swelled and his efforts to strain and burst the chain were tremendous.

Finally the chain that went around his body burst. Getting down on the floor, he dragged himself toward the door of the cage, until reaching the limit of the heavy chain which secured his foreleg to two of the front bars, he stumbled and fell. He did not go down with a crash, however, but went over on his side first, stiffened out and died in just 12 minutes from the time he took the first ball of wet bran.

The elephant was purchased by Mr. Adam Forepaugh, Jr., in 1882, and during the first year he was exhibited succeeded in killing one man and seriously maiming two others.

In the year 1884 he killed two men, both of whom were employed as keepers. His viciousness was again manifested in the year 1888, when he killed three keepers (two at one time), and a boy.

In the winter of 1888 Mr. Forepaugh, evidently thinking him too expensive a brute to longer maintain, presented him to the menagerie. Shortly after his arrival at the menagerie (in May, 1890) he severely injured Keepers Holmes and Maron, who were attempting to clean the stall in which he was confined.

On March 17, 1891, he turned on Keeper Snyder, who was in the stall with him, and injured him so severely that he was confined to his bed for some weeks.

On Feb. 18, 1891, he broke both of the chains by which he was fastened, tore out two of the partitions in the building and very nearly made his escape.

On the 30th of last month Keeper Snyder entered his cage for the purpose of placing a chain on the hind foot. He had no sooner entered when Tip charged on him and pinned him against the partition of the cage with his tusks. Fortunately for the keeper the elephant's head was turned away and could not use its head to advantage. Had his head been free the charge would have been fatal.

STANTON, Ills., May 12.—As a result of the vote of the miners in Shafts 6 and 7 both mines are working full force, and will continue to do so. Sheriff O'Neil has gone home after discharging all his deputies except 80, who now guard the shafts.

THE PUBLIC SCHOOLS.

Notes and Comments of the County Superintendent, Mr. G. W. Blatterman.

LAWRENCE—DISTRICT NO. 31.

The trustees are Wm. Marsh, Thomas Mackay and Wm. McNutt, and a very faithful, active board. They secured an excellent teacher in Miss Kate Mayhugh, whose work I have always found satisfactory. The attendance of scholars was thirty-seven and the enrollment was fifty; this was very encouraging. The order and discipline of the school were excellent, and the teacher spoke very encouragingly of her work. The house is comfortable, but needs painting, which I hope will be done soon, and patent desks instead of the clumsy old boxes where the scholars look as though they were "boxed up." But I have hopes of these trustees. They take interest in their school and will remedy all defects.

KEY—DISTRICT NO. 38.

The trustees are Graham Lee, Jas. B. Key and W. H. Rice, and they take good care of the school property. They will soon build a good fence around the school grounds, which will add to the appearance and comfort. Miss Lillian B. Williamson is in charge of this school and progressing very satisfactorily. The attention of the scholars was good and their deportment highly commendable. Miss Williamson has taught in other districts in our county and is a very bright, well qualified teacher. We heard several recitations which gave evidence of good scholarship. The trustees will have a good fence, paint the house and supply maps, charts, etc., by opening of the next term of school. They are progressive.

LINCOLN—DISTRICT NO. 42.

The trustees are Wm. Newell, R. C. Williams and Clarence Foster. Teacher, Mr. C. E. Turpin. A refreshing sight is here. Instead of the old, dingy, insect-harboring shanty that has been an eyesore to all passers by we have now a new school house, looking bright and pleasant and thoroughly furnished inside. Mr. Turpin is teaching this school a fourth year and this is sufficient evidence that he gives satisfaction. G. W. BLATTERMAN, Sup't.

An Examination for Non-Graduate Physicians.

OFFICE OF STATE BOARD OF HEALTH, BOWLING GREEN, KY., May 10, 1894.

To the public: The State Board of Health will hold a meeting for the examination of non-graduate applicants for certificates to practice medicine under the recently enacted amendment to the medical practice law, at the Medical Department of the University of Louisville, Louisville, Ky., beginning at 9 a. m., Thursday, June 11, 1894, this being the day the amendment goes into operation.

Only persons presenting satisfactory evidence that they were reputedly and honorably engaged in the practice of medicine in this State as an occupation prior to February 23, 1894, and that they are persons of good moral and professional character, will be eligible for examination.

The moral and professional character of the applicant, and the credibility of the witnesses as to the length of time he has been engaged in the practice in this State, must be certified to by the Medical Referee of the county in which such persons reside, or must be submitted to this Board ten days prior to the date of the examination. When practicable, the witnesses should be medical men.

All examinations will be conducted in writing, and while practical in character, will be sufficient to fully test the ability of the applicants to practice medicine with safety to the people; and, to be successful, each applicant must make a grade of not less than seventy in each branch.

As this provision was made by the General Assembly for the special benefit of worthy persons who have been reputedly engaged in the practice of medicine for ten years, but are unable to comply with the present law, and yet can not bear the expense and loss of time involved in a regular course in a medical college, no fee will be charged for the examination. By order of the Board.

J. M. MATTHEWS, M. D., President.
J. N. MCCORMACK, M. D., Secretary.

For the Farmer.

Perry Jefferson and Charles Martin, living near Millersburg, sold twenty-six first class yearling cattle this week to Mr. McCann, of Lexington.

Exchange: "There is no profit at any time in poor stock. It is only when competition is not at all close that it can be tolerated, and the farmer can get a living despite his losses from keeping animals that each year cost more to keep than they return."

Price Current, May 10: "Western packers have handled 230,000 hogs the past week, compared with 215,000 the preceding week, and 200,000 for corresponding time last year, making a total of 2,400,000 since March 1, against 1,650,000 a year ago. Increase for the week 30,000 and for the season 750,000, compared with last year. At the close prices of hogs average about 15c per 100 lbs. lower than a week ago for prominent Western markets, at about \$4.95 and \$5.

An Eastern man has invented a plough to be drawn by a stationary steam engine placed at one end of the field; then the apparatus being reversed, to be drawn to the end from where it started by another stationary engine. It is designed to break the ground, pulverize the soil, sow the seed and cover it up all at once. The revolving harrow and the bottom of the seed hopper derive their motion from the wheels on which the frame rests. When the machine reaches an end of the field, it is quickly reversed and is in readiness to be drawn back, working as it goes.

To make money now you must be willing to spend some. Many seem to think that it is only a new article that needs advertising, but that is a great mistake.

It May Do as Much For You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. for large bottle. At J. James Wood's drug store.

Nothing is too common to have its sale materially increased by newspaper publicity.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Arranging a Scale.
PITTSBURG, May 12.—The wage committee of the Amalgamated Association of Iron and Steel Workers are in annual session here. The task of arranging a scale this year will be unusually arduous from the fact that the scales have been so greatly altered and cut up since the last convention.
